The Prophecy

Among the senior class of 1952, there are many interesting personalities, many of them going far in this wide, wonderful world. Although heartbreaks and failure lie behind and great obstacles ahead, we, the seniors of '52 are still struggling for those childhood visions of happiness, fame, and fortune. We are going to tell you what has happened to us in the ten years following our graduation.

Jeff Burton, a brilliant young lawyer, easily won a divorce case for Lucy Sexton from Emory Corner, the result of a wrecked car which forced her to stay at home too much. She is now leaving for Japan with her three little Corners to meet Ray Emerson, her ex-fiance.

Nancy Pauley, Bobby Lee Muncy, and Frances Billings are getting settled easily to Morehead married life even if it did require quite a few adjustments. Nancy gave up her dress designing career, Bobby Lee retired as x-ray technician, and Frances gave up her job as Supervisor of Women's Division at the Bastian Sportswear Factory.

Libby Wyatt has firmly established herself as editor of a daily newspaper "The U.S. Newsletter" to which seven-eighths of the people of the nation subscribe. Roberta Kitts and Margaret Pruett have recently opened a swank beauty parlor in Chicago. Most of their business is manicuring men's nails. The old proverb, "beauty attracts" holds true here.

Norma Jean Waddle and David Hubble are successfully married and have six small sons. Julia and Donald are still as inseparable as ever. There are three additions, triplets, to the family now.

Dolly Nicewander has her date book full since she became a millionaire overnight by discovering the new atomic element Billium. We've tried hard to guess where she got the name for it. Evelyn Tickle is North Carolina's representative in Congress. She has been in the council of the city government for five years.

Since Billy Hylton and Nancy Muncy have finally gotten serious and pushed Sock out of the way, Billy is his old self again.

Bobby Stacy is now pitcher for the New York Yankees. They have won all their games so far this season, so he really must be good. He can't possibly have much time for the girls, or can he? Edward Havens has really made a big name for himself as the world's heavy weight champion.

Clayton Wright has won the Pulitzer Prize for his novel "A Wonderful Life" which is complete with illustrations by Billy Parnell. Everyone is wondering who the beautiful red head is that Clayton dedicated the book to. Ned Wright is handy-man for Margie Blankenship. Probably someday he will inherit one of the Blankenship millions.

Robert (Baby Newton) Morehead is raising pure-bred angus bulls and is considered one of the two best catches in Hollybrook. The other is Rodney Morehead. We can't imagine Rodney being single, especially since he bought himself a new yellow convertible and has all the girls chasing him in circles. Earl McPeak has just assumed the position as mayor of Martinsville. We hope he changes the town into the wonderful place which we already thought it was.

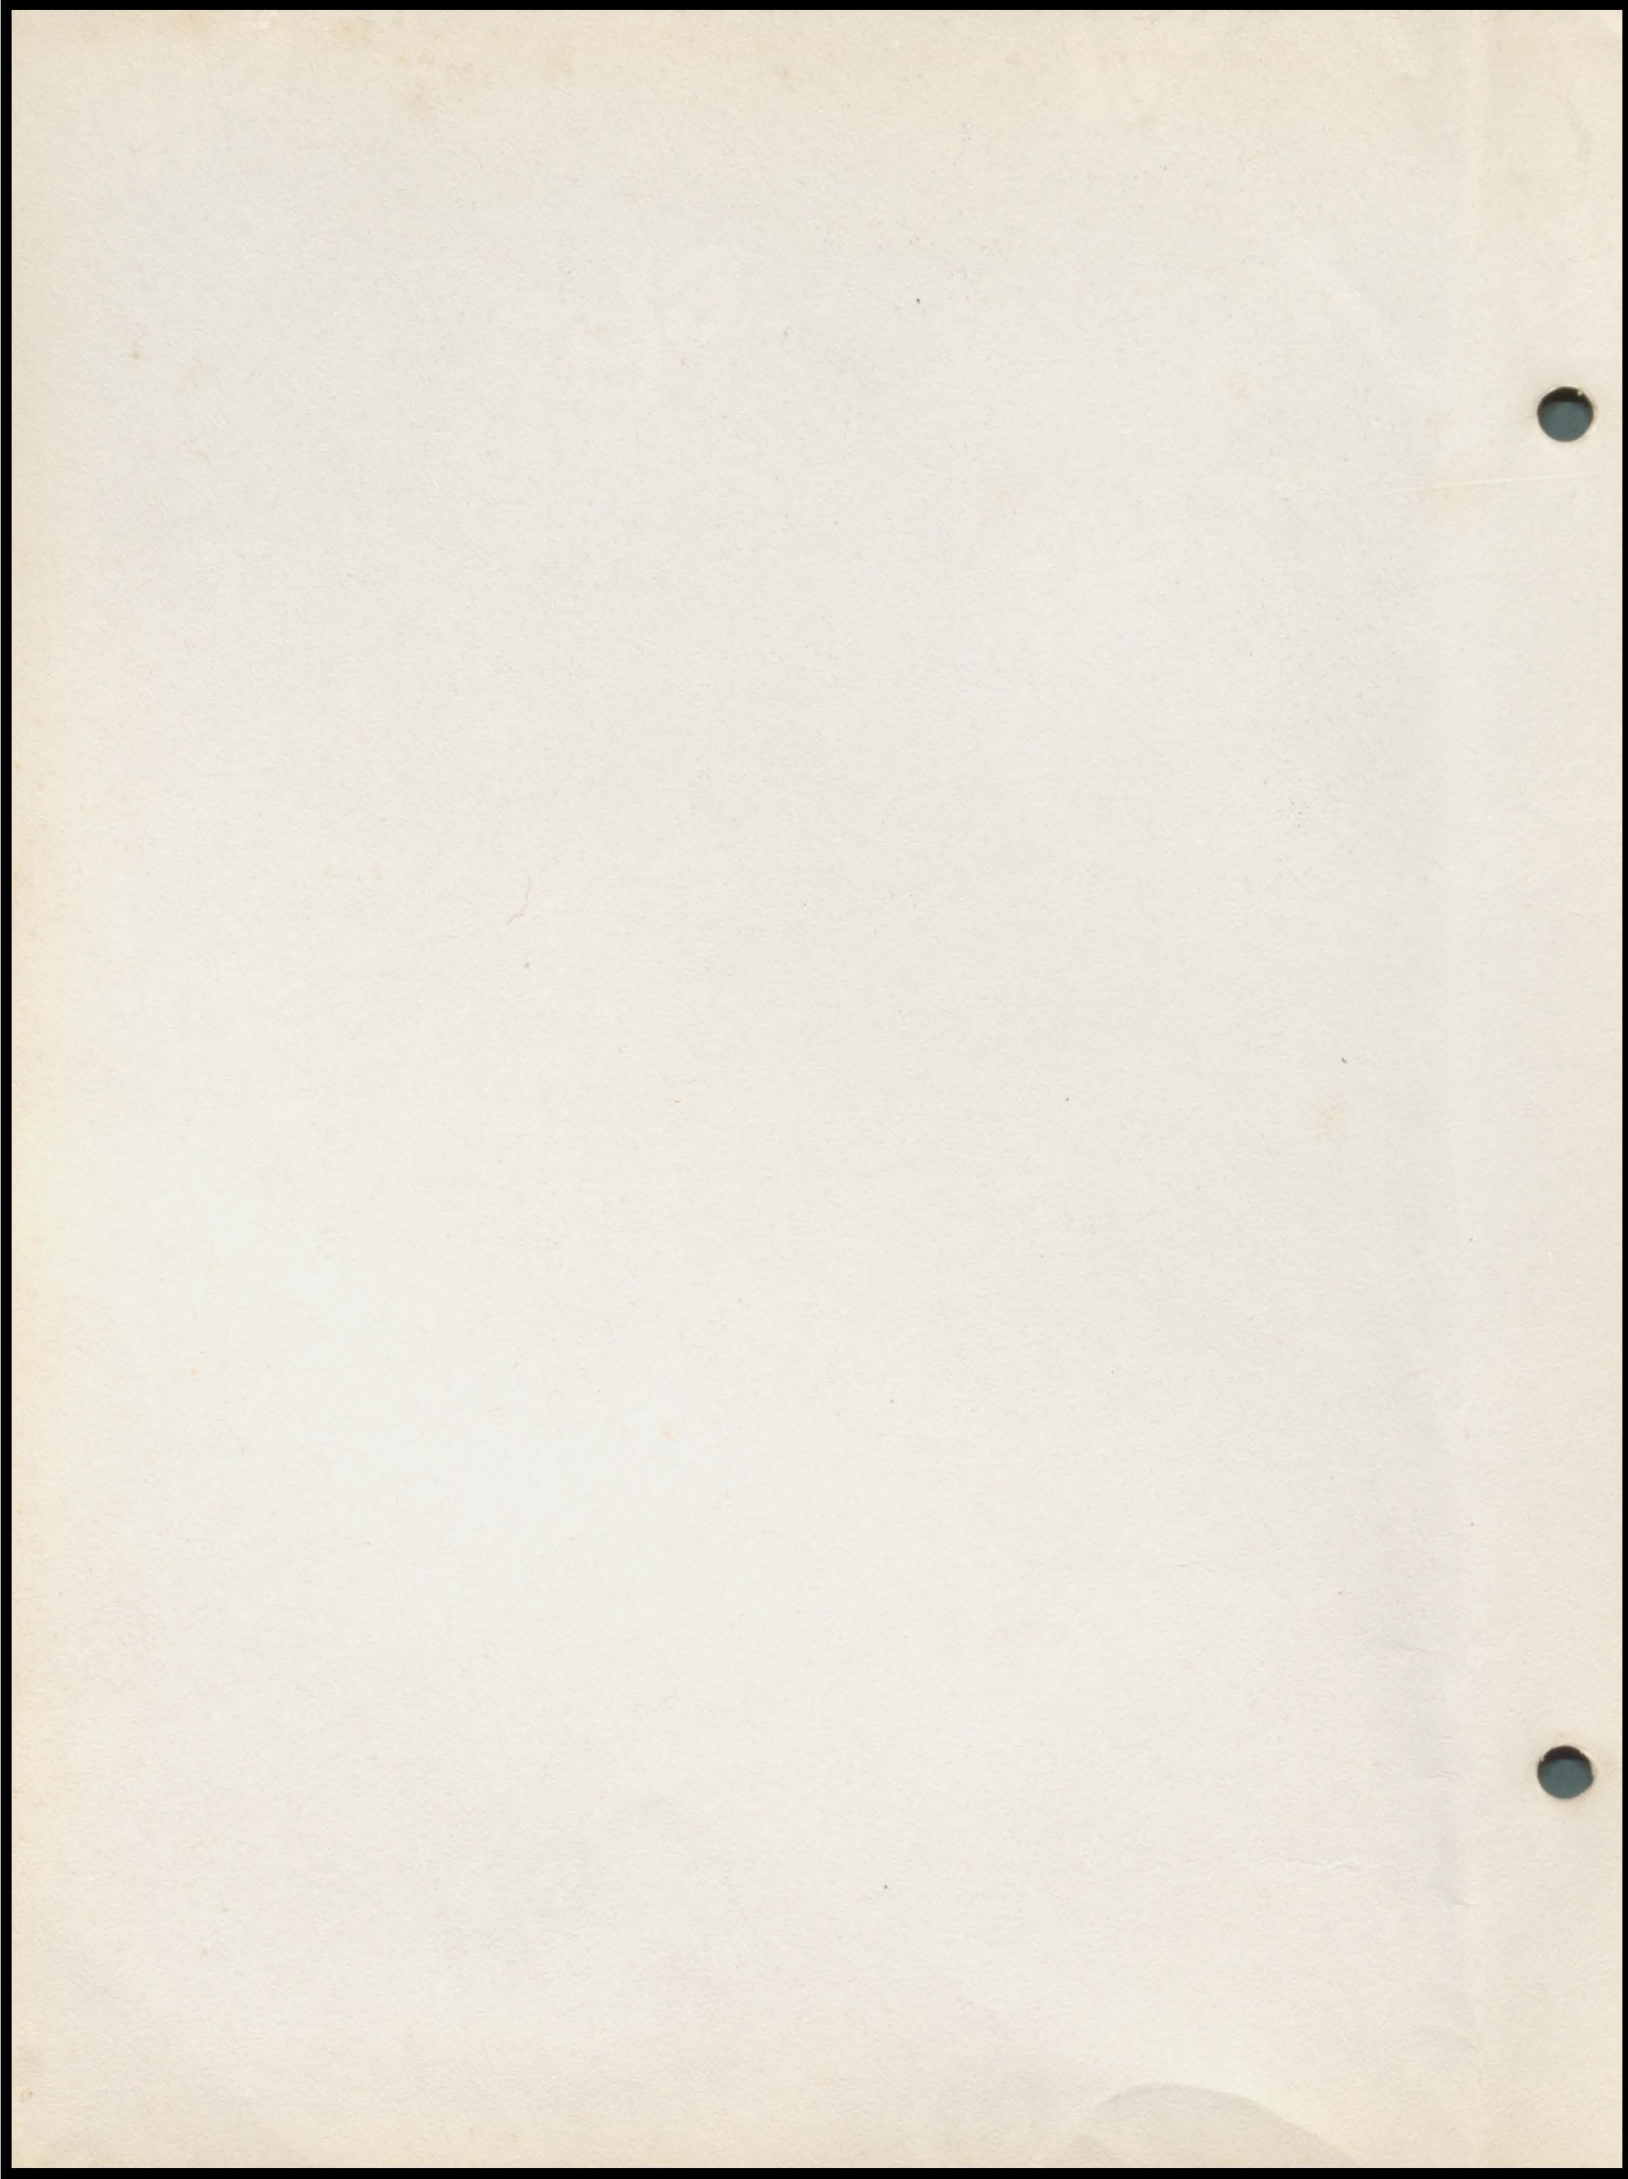

Donna Jean Kitts has completed eight years of secretarial work and is now private secretary to our United States President, Gib Repass. "You don't have to have book sense to be smart," says Jeep.

Leona Collins is still that dainty little girl. She's dainty now as top star on Broadway. Maxine Estep is co-starring in MGM's latest musical.

Ethel Burton and "Jerry" are touring the country. Their last stop is to be Washington where they are planning to shake hands with the President of the U.S. who, of course, is their classmate, "Geep" Repass.

Last are those three school stooges, Mary Ella Dillow, Jean Hooss, and Nell Vanover, who are starring on television's new hit "Silly Sisters". Nell finally got over her crush on Serber King and we're all very glad because we were jealous anyway.

Class Song of '52
(Flow Gently Sweet Afton)
Neil Vanover - Bobby Lee Muncy

We hail thee, Bland Seniors of ole '52;
The hardships we've suffered, will soon
be through;
The days have been golden, the days have
been blue,
But the ones we spent together, have been
happy with you.
Send afar our loud praises of our dear
high school,
Let them float o'er the hill-side, o'er
breezes so cool
When our school days are ended and our
work is done,
There will be our Alma Mater proudly
looking on.

Bobby Lee Muncy
Neil Vanover

Senior Class History

On September 1, 1948, we entered high school with a class of 43 members. We were known as those stupid little things called Freshmen. We could be compared to pups, sniffing around everything that was new to us and yapping continuously. Mrs. Helen P. Hardy was our sponsor that first crucial year. We elected Norma Jean Waddle as class president.

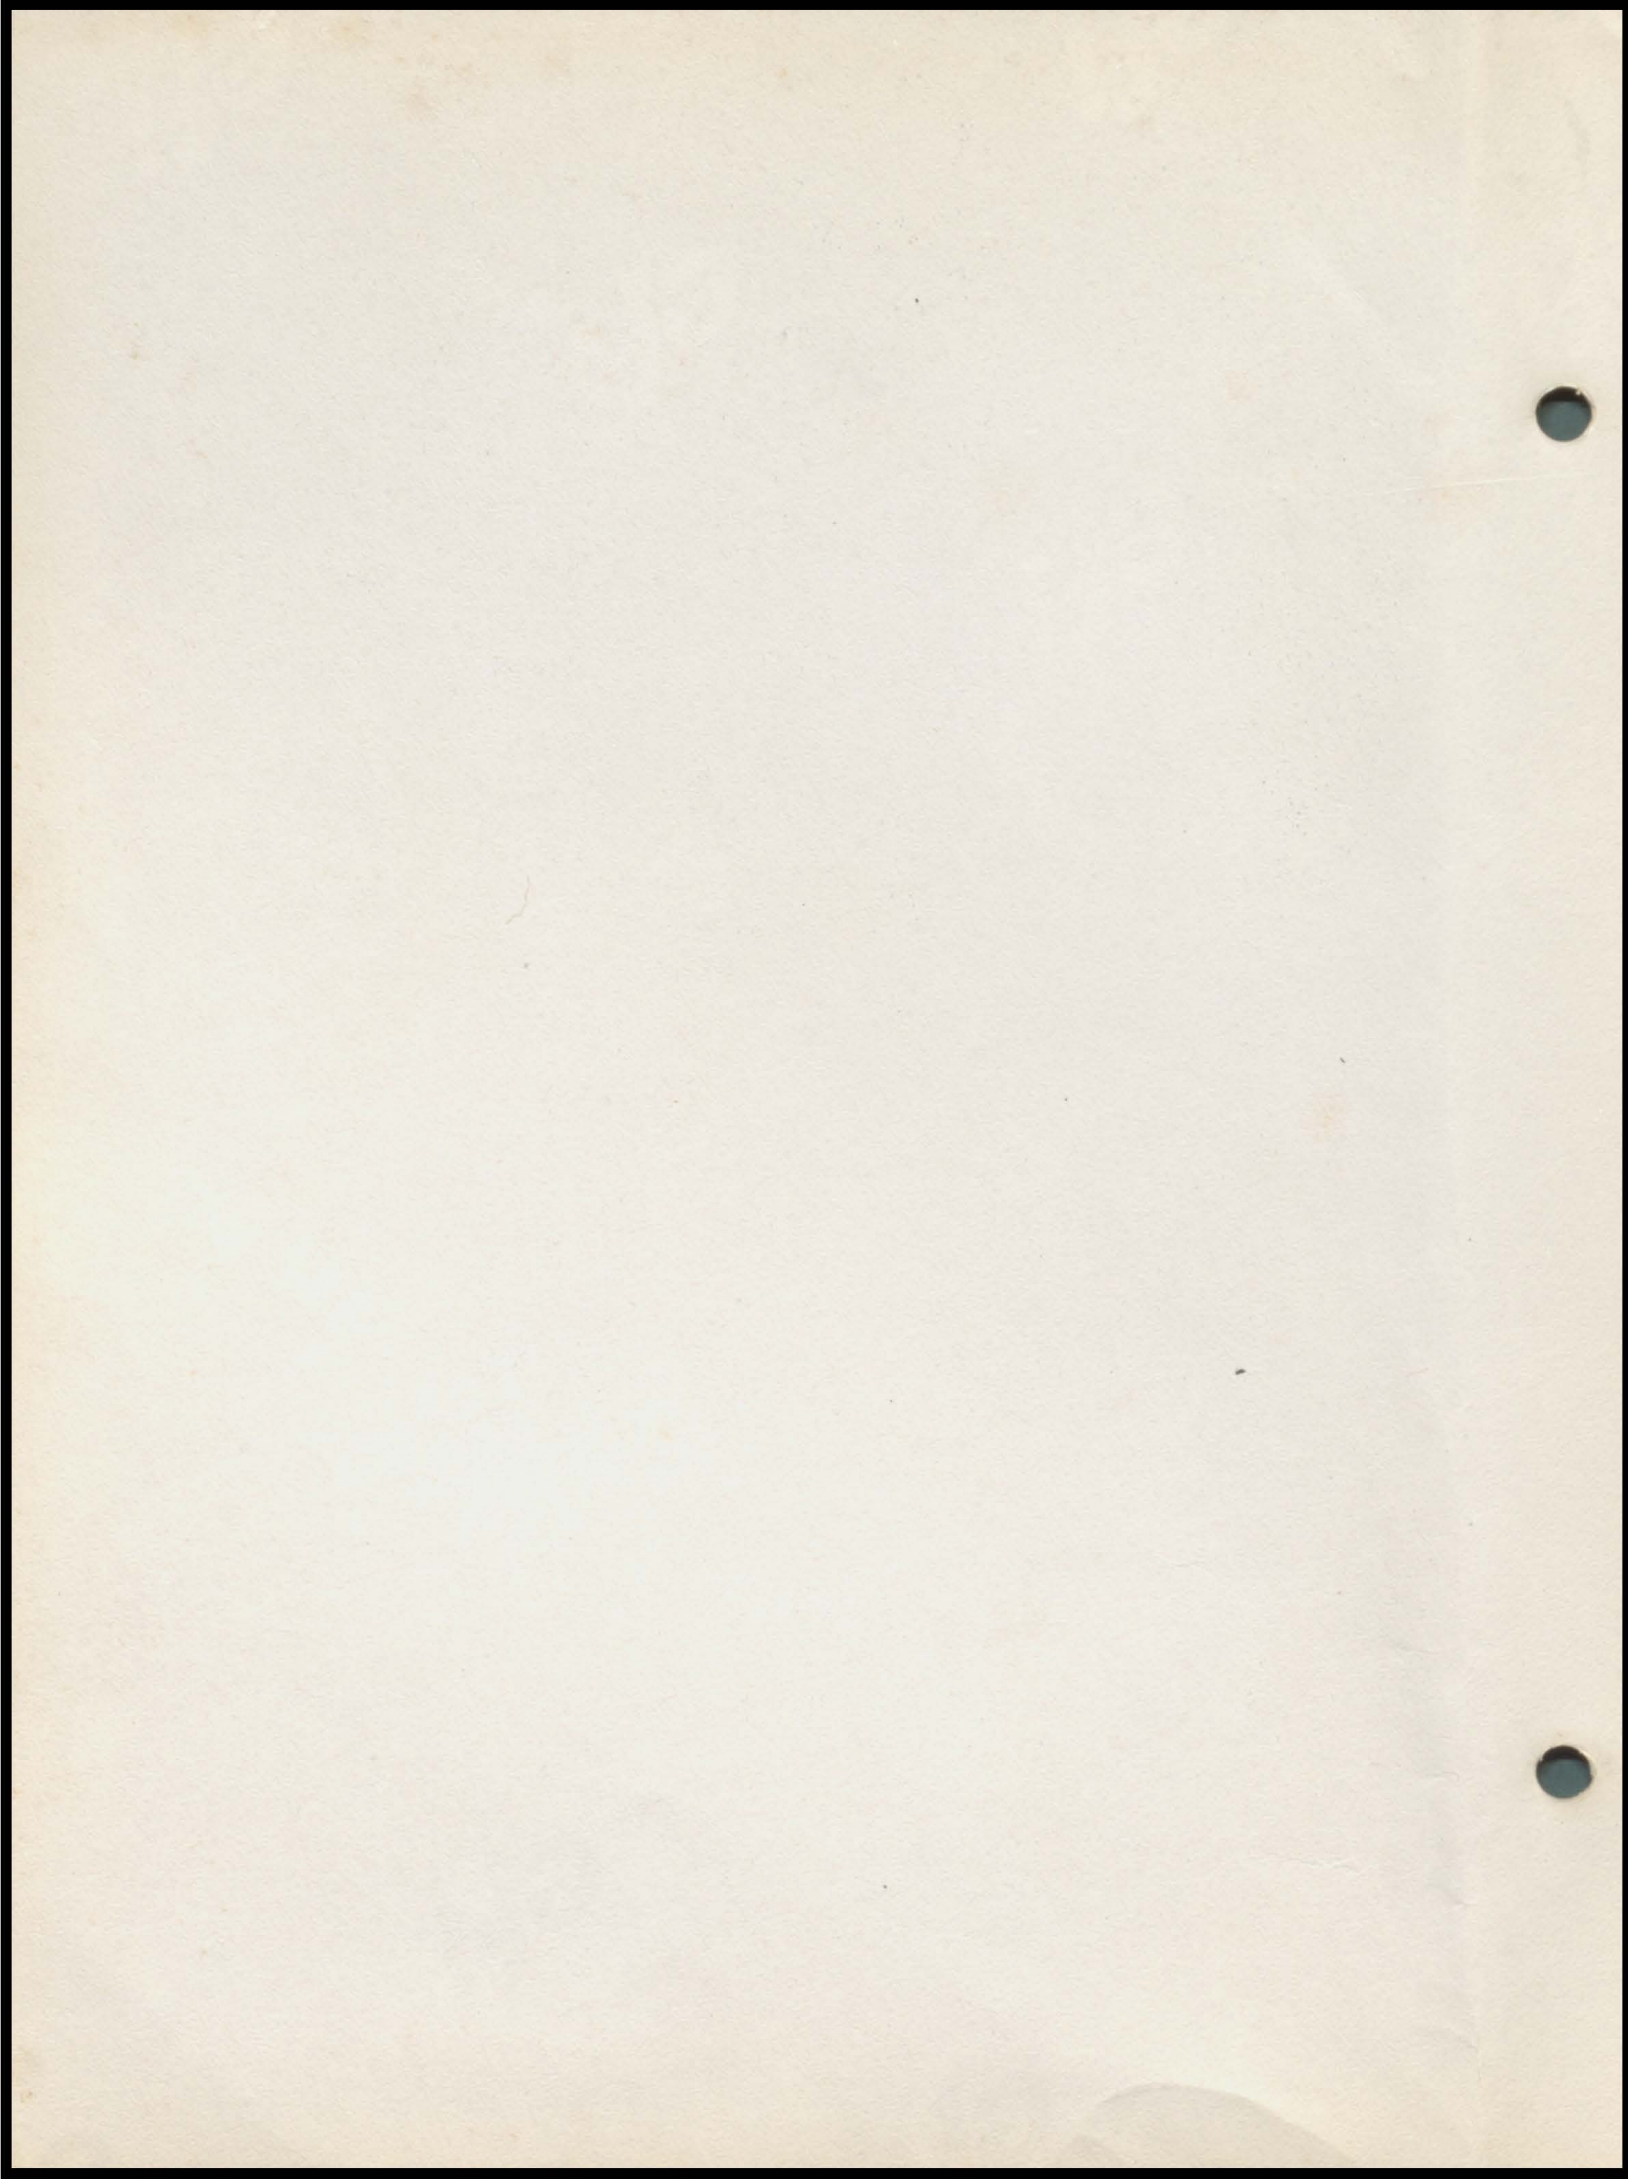

By our sophomore year, the newness of high school life had worn off, and we were ready to settle down for work. Mrs. Hardy was again our sponsor. Although we had gained several more pupils that year from other schools, we had also lost some students who had dropped out for greener pastures. Our class now had 42 members.

Then came our Junior year with Miss Blankenship as our sponsor. We were joined by five more boys from Hollybrook and having lost more of our original class, we started out with a class of 36 members. We enjoyed many class activities that year, such as the Junior Dance, Junior*Senior Banquet, and a wiener roast at Carters' Memorial Park. Eddie Hoge was our class president.

Now after years of looking up to the seniors, we have finally reached that goal ourselves. In September 1951 we returned to Bland High, happy and yet sad, for we realized that this would mark the ending of four wonderful years. Mrs. Hardy was again our class sponsor and Nancy Pauley was elected class president.

With sadness we bid farewell to the place where we have worked together, played together and made friendships which will last through all the years to come. Here on the hill each of us has tried to do his part and now we shall venture out on the highway of life, but we shall not forget to look back and remember that high upon a hilltop our Alma Mater stands where the class of '52 lived and laughed and worked and learned to hold her dear.

The Grumbler

We, the seniors of '52 would like to tell you, the readers of "The Echo," the many hardships we have had to endure these long four years in the so called Bland High School.

To begin with, that first dreary day in September 1948, Mr. Smith imposed upon us many unjust and tyrannical rules and placed a hard-boiled teacher at each door and at each end of the hall to see that we obeyed the rules. He also informed us that four subjects were required each year. He then listed four subjects on the board and told us to take our choice.

During our freshman year there wasn't room in the library for our study so we had to take study in different classrooms in which each teacher informed us that if we didn't behave, a yardstick would be used on us.

Dragging along into our sophomore year we were given the same old home room that was so cold that we had to stay bundled up in coats all the time. This year we thought we were very intelligent and very much grown up. Our principal informed us that we were the best class in school, however, at the end of school no one received a medal.

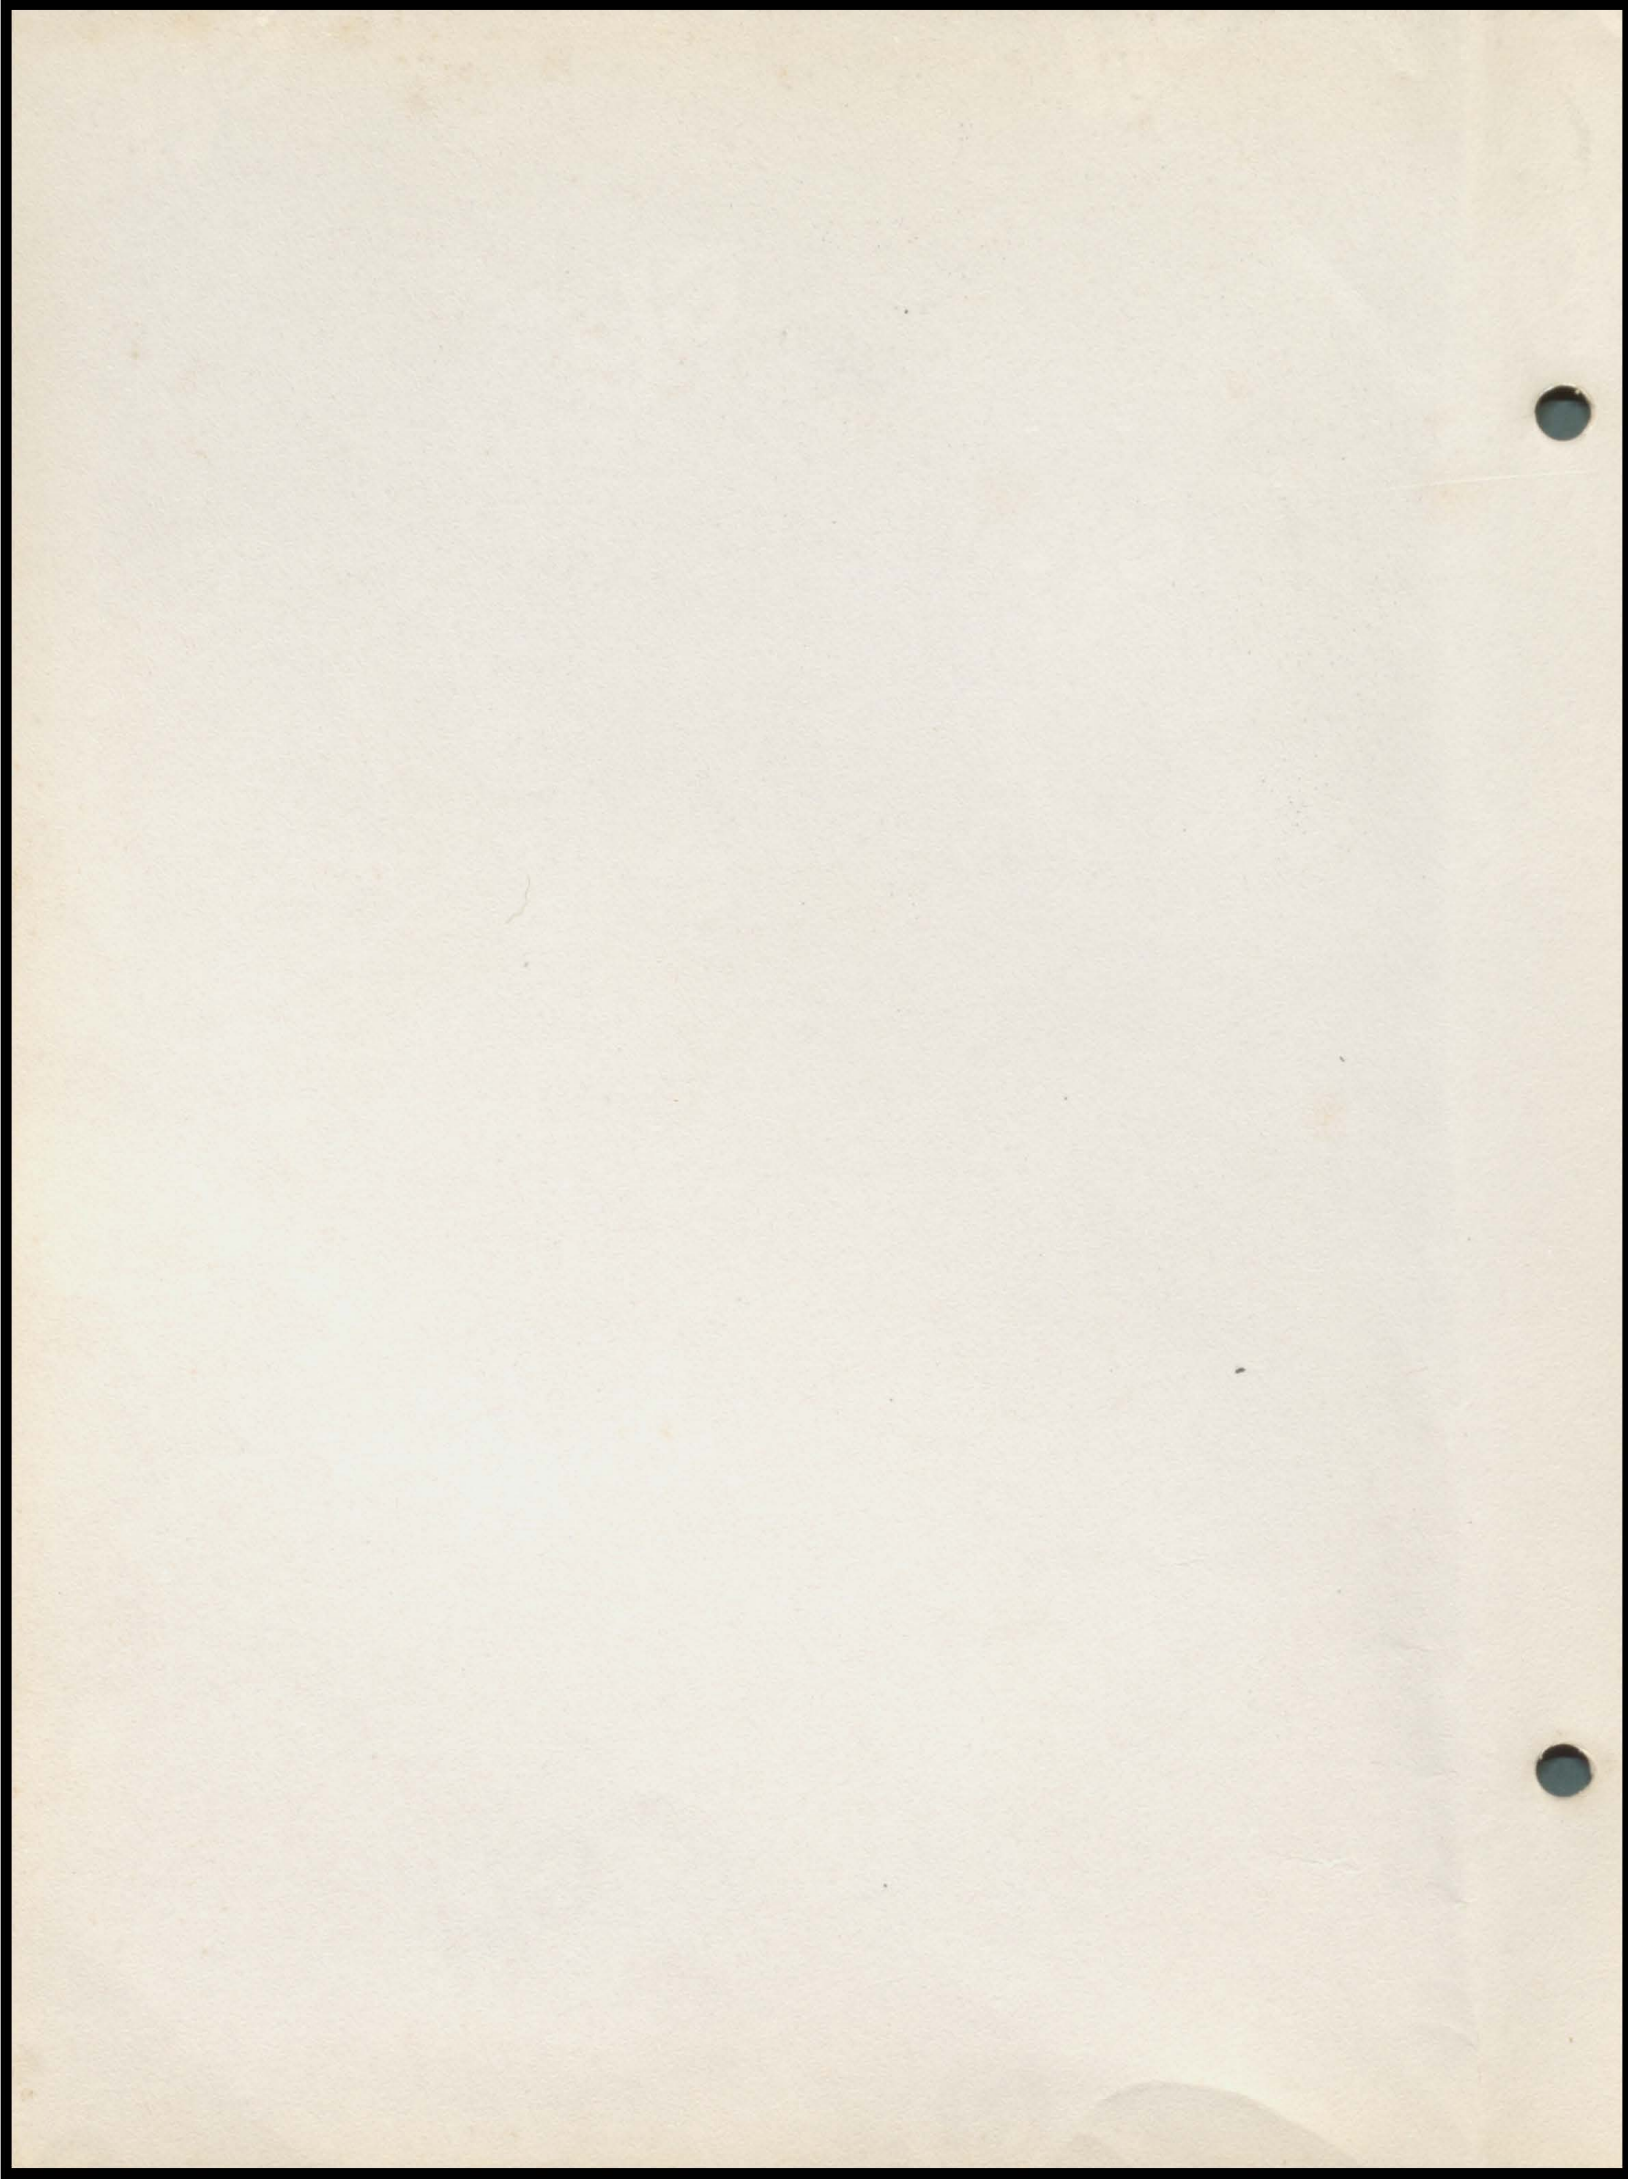

Moving on, we advanced into our junior year which we expected to be very exciting; for we felt as if we were out of jail, but we weren't; we were back in prison. Our teacher this year sent us to the office so much that we wore out the couch and the school had to buy a new one. The ring man came one day and told us what kind of ring we would get. We had no choice. We didn't even get to have a junior play, instead we had a dance. We also had to peddle Christmas cards to raise money to finance the Junior-Senior Banquet.

We at last reached the peak of our journey. We had always heard about dignified seniors, but our teacher didn't treat us like seniors. They treated us like undignified, uncouth, gawky seniors. We had to have a new English teacher who crammed our brains so full of Chaucer and the Old English Period that we thought we were living the same life as Englishmen lived. On the first day of school here came Mr. Smith with six freshmen who ruled the room and we couldn't even have a boy friend because they kept them in the closet all the time. Our government teacher kept threatening us with failure if we didn't have our outlines every day and she told us that we didn't pass on our own merits, but on her goodness.

What good is school anyway? It is just one monotonous day after another filled with many discomforts, brain-racking lessons, hard-boiled teachers, tiresome chapel exercises, and difficulties and hardships in general. So we, the seniors, think it is a miracle we have at last reached our journey's end.
