

ROCKY GAP HIGH SCHOOL
Rocky Gap, Virginia
Bonnie Atwell, Editor

Rogahi

"When the evening sky
is painted crimson
by the setting sun
and the birds all cease to twitter,
knowing the day is done.
It is then we like to ponder,
and forgetting worldly strife,
realize that love and friendship
are the greatest things in life."

In Dedication

In these turbulent times of
distrust, uncertainty, and
corruption, you have shown us how
to believe in ourselves.

By relating class discussions
to current world affairs,
we forgot our indifference
and became involved.

You have taught us
not only through books,
but through your own personal life.

As a teacher,
you have given
the greatest gift of all—
YOURSELF.

For your personal characteristics
That have inspired your students,
We proudly dedicate the 1974 Rogahi
To

A class prophecy

Ten years from now, when you pick up this annual, you will have access to at least 15 new electric appliances that don't even exist today!

Electrical innovations will "make the scene" (as we say in 1974) to benefit health, education, industry and our social lives. You'll also see in the next decade more electronic equipment to purify, filter, recycle and generally clean up America.

Electricity is doing a lot of things for you now. It's going to do a lot more tomorrow. Our prediction: Life will keep on getting better — electrically.

"It's PET...
you bet!"
